- CI/CD
- Play Store

PROJECTS

Askary (on the play store) ⤢   Mar 2022

An application that provides you with supplications and praises, and provides you with an electronic rosary.

Fakrny ⤢   Feb 2022

This app helps you to write down and remember daily tasks.

Movies App ⤢   Jul 2023 – Sep 2023

This Flutter application allows users to browse and discover popular movies using data fetched from The Movie Database (TMDb) API.

It includes features such as displaying a list of movies, viewing movie details, and localization.

I learned the following:

- How to write code in a clean, maintainable way that makes it easier to build scalable apps.
- How to deal with domain, data, and presentation layers.
- About SOLID principles.
- Dependency Injection
- How to handle Errors.

Shop App ⤢   Mar 2022

Now you can easily shop from home

Akhbari ⤢   Mar 2022

Do you want to know what is happening around you? This is the right place.

Bookly ⤢   Dec 2023

Bookly application , It's an application to represent google free books in programmming field you can see free books and read it .

SOCIAL SKILLS

- Teamwork and cooperation

- Self Learning

- Problem Solving

- Time management
